

OBRL Quarterly Newsletter #25 December 2012

This is the infrequent, Quarterly Newsletter
from the *Orgone Biophysical Research Lab (OBRL)*
in Ashland, Oregon, USA.

<http://www.orgonelab.org>

*James DeMeo, PhD
Director of OBRL*

**Happy Holidays and New Year 2013!
From James DeMeo and OBRL**

**Annular Solar Eclipse of 20 May 2012, ~18:30 hrs.
Recorded at the Orgone Biophysical Research Lab in Ashland,
Oregon, USA, as the region of maximum totality passed overhead**

Due to a very busy work-schedule, OBRL Newsletters will
henceforth be sent out only once per year, in late December.
Subscribe to OBRL-News or visit the OBRL-Blog for regular notices.

<http://www.orgonelab.org/OBRLNewsletter.htm>

**Here's what's been going on at OBRL in 2012,
and what's in store for the future.**

Dear Friends and Supporters,

Another year has passed, with many new observations and events to report. While research at OBRL has progressed well, this year saw an incredible onslaught of slanders and attacks in the mainstream liberal-leftist media against the biography and research legacy of Wilhelm Reich. Mostly these were triggered by a new “book of slander and lies”, *Adventures in the Orgasmatron*, about which discussion and weblinks are given below. More time than we desired was devoted to writing rebuttals and corrections against those attacks. Additional slanders against Reich and his discoveries were spread on British TV, and in the British science journal *Nature*, and those also required considerable effort to counter and have corrected – though the corrections came late, after considerable damage was already done.

This situation made me realize the importance of effective counter-attack against the slanderers, prompting development of a new book with the preliminary title, *In Defense of Wilhelm Reich: Opposing the 80-Year's War of Slander and Lies Against a Brilliant Natural Scientist and Physician*. This work is nearly completed and scheduled for release sometime in early 2013. *OBRL-News and Quarterly* will carry notices when ready. Another major article of similar title was also recently published in a peer-reviewed scientific journal, co-signed by 24 professionals: “In Defense of Wilhelm Reich.” This article primarily opposes slanders that appeared in *Nature* magazine. By these efforts, we hope to create a defensive bulwark against the slanderers, identifying them publicly and exposing their lies. If their efforts were aimed to utterly and finally destroy the name and research legacy of Reich, to wipe out the science of Orgonomy, they failed to do so, in large measure because of the ambitious counter-attacks and rebuttals which were authored by a considerable number of Reich's supporters.

Overall 2013 seems shaping up to be a busy year with several seminars at OBRL and public lectures to different scientific societies. New translations of the revised and expanded 2010 edition of my *Orgone Accumulator Handbook* into Italian, Greek and Spanish, are also on schedule for next year, to be announced in the OBRL Newsletter.

Research at OBRL has also continued, and reports on those activities will follow.

Your interest in keeping abreast of my work as supported via OBRL is most appreciated. Please consider purchasing our books, both older and newer ones, for both yourself, as well as for gifts to students and friends.

Thanks for your interest,

James DeMeo, PhD

Ashland, Oregon, USA

1. New Published Articles, Essays and Notes, by James DeMeo for 2012:

* Article: *In Defense of Wilhelm Reich: An Open Response to Nature and the Scientific/Medical Community*, signed by 24 Professionals. This article was prepared in response to some terribly malicious statements attacking Reich in one of the leading international science journals. With effort, we were able to get them to publish a partial retraction, but it was meager and did not address the larger issues involved. So we persisted and got our original article published in *Water*, another excellent peer-reviewed science journal. The article can be read or downloaded from the *Water* journal website, here:

<http://www.waterjournal.org/volume-4>

Additional preliminary information is posted here:

<http://obrlnews.wordpress.com/2012/11/09/disinfo-and-sexual-slander-of-wilhelm-reich-in-nature-magazine-and-a-retraction/>

* *An Appeal to Caution on “Desert Greening,”*

<http://www.orgonelab.org/DeMeoCautionOnDesertGreening.pdf>

* *New Evidence Supporting Saharasia*

<http://obrlnews.wordpress.com/2012/06/06/new-evidence-supporting-saharasia>

* *More Confirmation on Saharasia*

<http://obrlnews.wordpress.com/2012/06/09/more-confirmation-on-saharasia/>

* *Critical Review of Christopher Turner's “Adventures in the Orgasmatron”. A Defense of Dr. Wilhelm Reich and his Orgonomic Science Against Renewed Sexual Slander and Defamation,*

<http://www.orgonelab.org/DeMeoReviewOfTurner.htm>

* *Fighting Defamatory Slanders from UK Channel 4/Wag-TV “The Sex Researchers” Program*

<http://obrlnews.wordpress.com/2012/06/13/fighting-defamatory-slanders-from-uk-channel-4wag-tv-sex-researchers-program/>

* *Wikipedia Lies on Wilhelm Reich and Orgonomy*

<http://obrlnews.wordpress.com/2012/11/05/wikipedia-lies-on-wilhelm-reich-and-orgonomy/>

* *From Russia, With Hate: The Case of Nikolai Levashov From Psychic Healer to Jew-Hate and Holocaust Denial Book Review and Social Analysis*
<http://www.orgonelab.org/DeMeoReviewOfLevashov.pdf>

Forthcoming 2013:

* New German, Italian, Spanish and Greek translations of *The Orgone Accumulator Handbook*, by James DeMeo.

* Book: *In Defense of Wilhelm Reich: Opposing the 80-Year's War of Slander and Lies Against a Brilliant Natural Scientist and Physician*, by James DeMeo. (in press)

2. A lecture at the *Technical University of Munich*, with Follow-Up

(originally posted to the OBRL Blog:

<http://obrlnews.wordpress.com/2012/04/06/munich-lecture-follow-up-contact-and-questions/>) This particular email, sent to participants at my Munich lecture, carried much information that should be of interest to OBRL subscribers, so it is being repeated here in its entirety. My thanks to Klaus Heimann for the organization of this event and the invitation to speak.

++++++

4 April 2012

TO: Munich Lecture/Seminar Participants

FROM: James DeMeo

RE: Follow-Up Issues

During and after my recent lecture and one-day seminar in Munich, devoted to new research supporting the works of the late Dr. Wilhelm Reich, a number of questions came up and for which I promised specific individuals a reply once returning to the USA. Since these same questions may be of interest to the entire group of participants, I will make them more publicly available here.

I also wish to re-emphasize a point made at the beginning of the lecture, that in such a short time it was impossible to go into much detail on any one given point of Reich's own research findings, or to give full details on the more recent experimental confirmations. Here I will also point to additional resources on that issue.

A. A summary article on my Saharasia findings is available, in German and English (plus other languages) for free download from this webpage: <http://www.saharasia.org>

The summary article provides basic details on the procedures out of which the *World Behavior Map* was developed. Even more exacting details are found in the larger 460+ page book, entitled *Saharasia*, now available also from Amazon.de and Amazon.co.uk, which saves considerably on shipping costs to European destinations.

B. Regarding Reich's orgone biophysical discoveries, we now have several interesting YouTube videos with nearly 400,000 views in total, including a new one on "*Wilhelm Reich's Bion-Biogenesis Discoveries: Experimental Verification*", which reproduces a PowerPoint presentation I made in 2000, to the *Second International Conference on Pleomorphism*. These videos are condensed for the YouTube format, but cover many of the scientific issues with interesting graphics. See here: <http://www.youtube.com/user/naturalenergyworks>

C. My various published scientific articles as appearing in both peer-reviewed research journals and more popular forums are listed here: <http://www.orgonelab.org/demeopubs.htm> Especially I would recommend the article recently published in Water Journal:

"Water as a Resonant Medium for Unusual Environmental Factors"

<http://www.orgonelab.org/DeMeoWaterJournal2011.pdf> ,

Also these two controlled experimental studies confirming biological and physical-anomaly effects from the orgone energy accumulator.

<http://www.orgonelab.org/DeMeoSeedsSubtleEnergies.pdf> ,

<http://www.orgonelab.org/DeMeoToTSubtleEnergies.pdf> .

D. Some of my most recent work, as regarding orgone accumulator influences upon water spectroscopy and/or GM counter rates, has only minimal publication. However, preliminary reports are found in back issues of the Newsletter of my institute, the Orgone Biophysical Research Lab (OBRL), available for free download from here: <http://www.orgonelab.org/OBRLNewsletter.htm>

At this same website, you can also add your email to one of the two OBRL Newsletters if you are not already on it. By adding your email to these lists you will be informed of new publications and conferences devoted to the subject of Wilhelm Reich and orgone biophysics.

E. A question came up regarding why in 1934 the *International Psychoanalytic Association* (IPA) decided to expel Wilhelm Reich as a member. There are a number of identifiable reasons why Reich became a "thorn in the side of Freud" and other highly-placed psychoanalysts.

Firstly I should note that Wilhelm Reich describes the events which led to his expulsion in the following article: "The Expulsion of Wilhelm Reich from the International Psychoanalytic Association", *Annals of the Orgone Institute*, I:114-126, 1947. Reprints of this journal are available from the *Wilhelm Reich Museum bookstore*: <http://www.wilhelmreichtrust.org> Reich also discusses the matter in his excellent book *Reich Speaks of Freud*, which is available from booksellers in both English and German-language editions.

My own review of the history of psychoanalysis, and its general trend of action and thinking during that period, fully supports Reich's view, but also suggest a few additional aspects taken from materials not known or available during Reich's time.

1932 marks the date of several important publications by Reich. Notably his pamphlet *The Sexual Rights of Youth*, and the first German edition of his *Mass Psychology of Fascism* appeared, eliciting positive reactions among some of the analysts, but negative reactions by others. His elucidation of the sexual pathology among the followers of Hitler in the National Socialist movement were seen as provocations by many Freudians, who felt they were still, at the end of the day, German citizens who had to "get along" with the dominant political entity, whatever it was. They had no clarity about the impending catastrophe as was apparent to many others, including Reich, who was put on Nazi death-lists for his sex-political and anti-Nazi activism. Reich was then active in the Marxist political parties, which was an offense in the eyes of the more conservative analysts, including Freud. Today we know that Freud was, around this same time, asking Jewish members of the IPA to quietly resign, so their names would not appear on the membership rosters, and thereby avoid problems with the Nazis. Freud was also relocating to Switzerland, and the entire structure of German psychoanalysis was handed over to non-Jewish leaders.

As a relevant aside on how far at least one of the former psychoanalysts would go to "get along" (or to become collaborators with the Nazi regime), the one-time psychoanalyst Karl Jung went on to form a decidedly anti-Jewish analytical organization with the cousin of the Reichsmarshal Goering. He became editor of the *Zentralblatt* (Journal) of a Nazified psychology organization, in which his first-issue editorial made backhanded statements about "Jewish psychology". At their first official Conference, introduced by Jung was a Nazi speaker who arrived in full black SS uniform, giving a big *Sieg*

Heil to the audience before his talk! The one-time analyst and director of the Freud Archives, Jeffrey Masson, wrote about this ugly history in a chapter “Jung Among the Nazis”, in his book *Against Therapy*, which is essential reading for its insights into the censored history of psychoanalysis. Masson did not address Reich’s conflict with Freud, however, but by c.1932, Freud considered Reich to be a troublesome “Bolshevik”. This was an angry exaggeration on Freud’s part, but nevertheless was a widely held opinion given Reich’s alliance with communist groups in opposition to Nazism and in support for his Sex-Pol sexual reform legislation.

Most all the psychoanalysts in the IPA were un-sympathetic to National Socialism. But they were nevertheless hostile to Reich for his Marxist views, and for his “provocative” and openly-expressed anti-Nazi position, as well as for his modifications of traditional psychoanalytical concepts. Reich came to reject the biological nature of the Oedipus complex, considering it to be socially determined. The Oedipal complex was not present in the sex-positive cultures as per the findings of Bronislaw Malinowski, for example, as presented in the books *Sexual Life of Savages* and *Sex and Repression in Savage Society*. And while Reich’s work *Character Analysis* became a widely celebrated psychoanalytic textbook, his later changes to psychoanalytic therapeutic methods upset the more rigid analysts. He initiated a more direct eye-to-eye discussion with the patient, as well encouraging patients to increase their breathing to help bring up buried emotions, which he encouraged them to express. He began touching the patient’s body, using methods of compressing specific muscle groups to elicit emotional release. Added to this was Reich’s alliances with the German Communist Party (KPD) towards advancing of his Sex-Pol ideas, which included his determination that sexual relations between young lovers and the unmarried (ie, Romeo and Juliet) was healthy and natural, and that divorce, contraception and abortion be legalized. All of this was perceived as extreme irritation to the more dogmatic psychoanalysts.

While Reich was exposing the sex-pathos of the Nazi movement and considered himself to be a committed Marxist, on many occasions he also dared to write and speak critically of the KPD and Soviet leadership, including the High Saints of Soviet Communism such as Lenin. This was just before the period of the Moscow show trials, when criticism of central party decisions would bring death sentences. So it is not surprising that Wilhelm Reich’s name and statements quickly came to the attention of the party bosses. He was thrown out of the KPD in 1932, and increasingly became critically outspoken against Communist Party authoritarian methods. By 1936 or earlier, Reich’s name was included on a *Top Secret NKVD death-list* as a much-hated “Trotskyist” (which was not accurate, Reich was no Trotsky-ite), something which even Reich did

not know about. This death-list document only saw the light of day in recent years, when internal Soviet archives were opened up following the collapse of the USSR. I have already given some discussion on this amazing document, with citations, in a section “*New Information on the Persecution and Death of Wilhelm Reich*”, reprinted in the revised 2010 edition of my *Orgone Accumulator Handbook*. <http://www.orgonelab.org/ReichPersecution.htm>

While Freud and the conservative analysts increasingly distanced themselves from Reich for the reasons of their objections to his psychoanalytic revisionism, his early Marxism and “provoking the Nazis”, Reich’s growing criticisms of Communism and the KPD leadership affected his relationship with key Marxist psychoanalysts. One of Reich’s closest friends and associate co-workers of that time was the psychoanalyst Otto Fenichel, a dedicated Marxist who bitterly turned against Reich for such ideological impurity. Fenichel was instrumental in getting Reich expelled from the IPA in 1934, through spreading of ugly rumors against Reich, and other connivances particularly leading up to the Lucerne psychoanalytic conference. Fenichel remained a committed Marxist and psychoanalyst, and so had several reasons to hate Reich. Fenichel’s biography suggests he was a “organization man”, a social climber who constantly carried favor within the IPA, tempering his Marxism when necessary, but who had nothing of essential criticism to say about murderous Soviet communism. After psychoanalysis was compromised and disrupted in Europe due to growing Nazi power, Fenichel fled Germany and began writing a series of “*Rundbriefs*” (round-letters) which were sent around to the remaining core membership of psychoanalysis, who also had by this time fled to nations outside the reach of the Nazis, in a disorganized diaspora. Fenichel eventually wrote over 100 of such lengthy *Rundbriefs*, spreading news of about the work and publications of various analysts, and about the larger psychoanalytic movement, adding his own commentary. His commentary frequently included defamatory statements against Reich. Other psychoanalysts repeated Fenichel’s lies via spoken rumor and gossip.

When Fenichel was temporarily residing in the USA, he filled the ears of the influential Karl Menninger with the same anti-Reich poison, after which Menninger helped spread the defamatory gossip and innuendo further by reprinting a major smear article against Reich in his *Menninger Clinic Journal*, authored by the Communist writer Mildred Brady. Menninger himself had a well concealed but now documented leftist sympathy, and there’s evidence indicating connections from Menninger and Brady directly into the FDA, which eventually brought Reich down via a phony “investigation” and legal actions. Fenichel’s *Rundbriefs* are today considered important history by psychoanalysts, and so are republished in a two-volume set of books in the original German language – but

with significant English-language passages from Fenichel's American period. They are still occasionally available in used bookstores:

<http://www.amazon.de/119-Rundbriefe-1934-1945-Band-1938-1945/dp/3878775687>

As a final note, in historical retrospect it is clear that Reich's entire sex-economic theory was to clash mightily with the elder Freud's own views. While the young Freud emphasized the real and damaging nature of sexual violence and early childhood trauma, and spoke out against it, exposing the extreme damage done to children by incest and rape, the elder Freud compromised such socially-alarming findings, watering them down so as to curry favor with the upper-class medical authorities of his day. His original lectures on these subjects, of incest by "proper, upstanding gentlemen" of high Viennese society were unpopular, leading to his marginalization within professional medical circles. Over a few years time, however, he changed his views so as to de-emphasize the issues of real trauma in favor of early childhood fantasies and wishes. Severely traumatic events such as forced incest (child rape!) and circumcision (genital mutilations!) became subjects within psychoanalysis for purely intellectualized discussions, as merely curious aspects of the netherworldly realm of the unconscious. One did not any more try to end them, to object publicly to such things, but merely to "understand" and "explain" them in "scientific" papers. Young girls reporting being raped by older male family members were, by the late-Freudian re-interpretations, "analyzed" to have been merely confusing their own unconscious wishes for sexual intercourse with their fathers. Little boys didn't suffer from sexual problems later in life due to genital mutilations, or other sexual abuses, but instead experienced circumcision as something "spiritual" or "transformative", and not as a pain-filled torture of sensitive parts of their sexual organ.

In contrast to the elder Freud, Reich always emphasized the damaging nature of real early childhood traumas and repressions, and the need to protect children from barbaric acts of sexual sadism by adults, as parents, physicians or teachers. Reich acknowledged early childhood sexuality, but highlighted how under conditions of prolonged trauma and repression, sexual feelings became distorted within loveless compulsive marriages, where adults suffered immense sexual dissatisfaction and frustration, and where adolescents were forbidden to live out their attractions and romances with other youth of the opposing sex. Incest, child rape, and later homoeroticism was the consequence, and all of this flew in the face of the elder Freud's stultified and intellectualized psychoanalysis. In my view, Reich had only a partial appreciation of how far the elder Freud had strayed from his own earlier work, and which for the young Reich had been his main attraction to psychoanalysis. The book *Assault on*

Truth: Freud's Suppression of the Incest Theory, by the same Jeffrey Masson as mentioned above, is necessary reading on these issues, and provides many details and references from the Freud archives which previously never saw the light of day. Not surprisingly, Masson is today no longer working in the Freud Archives, being persona-non-grata, and his writings, like those of Reich, appearing on the psychoanalytic *Index Expurgatorius*.

All of these factors came into play in the 1930s, where Reich was eventually expelled from the IPA. With no support from the IPA, and being hunted and hounded by both the Nazis and Communists in Europe, from this same time after c.1932, Reich fled to Scandinavia, and thereafter to the USA. After arriving in the USA in 1939, and after the defeat of Nazism in the 1940s, Reich continued to be slandered in publications written or edited by the Communist Party and its operatives in the American media. The socialist-oriented "do-good/anti-corporation" FDA, fully in alliance with the same old Marxist analysts and psychiatrists who had slandered him in Europe, later launched a faux-investigation which led to Reich's death and the burning of his books. This is so, even while members of the modern New Left created a false cover story based upon very slim evidence, that Reich had been destroyed by "right wing Christians" and "McCarthyites". Factually, the American conservative movement had little to do with Reich's demise, as he simply was not an issue for them. Reich had become decidedly anti-Communist during his American period of work, based upon his direct experiences with the sneaky, deceitful and cut-throat nature of the Leftist parties in Europe, and from what he saw of them in America. For details on this subject, review my article on Reich's persecution, as weblinked above.

F. A question was also asked, if anyone had replicated Reich's bioelectrical experiments, and I replied that I did not recall any such replications. However, I have since been reminded about this paper:

* Braid, Byron & Dew, Robert: "Reich's Bioelectric Experiments: A Review With Recent Data", *Annals, Institute for Orgonomic Science* 5(1):1-18, September 1988.

<http://www.orgonomicscience.org/publications/annals-of-the-i-o-s/back-issues/>

I also recently learned of a doctoral dissertation from the University of Vienna, where just such a replication had been made. Here is the citation and a download weblink:

* Günter Andreas Hebenstreit: "*Die Elektrophysiologie erogener und nicht-erogener Hautzonen in Verbindung mit der Spannungs-Ladungs-Formel Wilhelm Reichs. Eine experimentelle Untersuchung.*" (*The Electrical Physiology of Erogenous and Non-Erogenous Skin Zones in Connection with the Tension-*

Charge-Formula of Wilhelm Reich. An experimental Investigation.) Wien, im September 2010.

http://othes.univie.ac.at/13854/1/2010-09-08_8501559.pdf

Both of these above studies provide positive evidence in favor of Reich's original findings.

G. At the end of the seminar the subject of "chemtrails" came up. I would recommend to review the various entries at this website for a good overview of the subject from a mainstream science perspective:

<http://www.contrailscience.com>

Given how Reich's name and the subject of the cloudbuster has been dragged into the "chemtrail" claims, I have posted my own review of the situation, which adds an organomic perspective, as well as one drawn from classical weather science. Here: <http://www.orgonelab.org/chemtrails.htm>

H. Finally, I was asked by several persons for suggestions on internet news sources which would allow for timely reports on Islamic violence around the world, about the modern alliances between the political Left-fascists and Islam-fascists, and also for more honest reporting than is available from most European left-politic news sources. Here is a short list of recommendations, to gain an appreciation for what you are very likely not being told (WARNING: These are not for the "politically corrected", weak-minded or lotus-eaters):

The Religion of Peace – Terror Monitoring <http://www.thereligionofpeace.com/>

Atlas Shrugs Blog: Pamela Geller <http://atlasshrugs2000.typepad.com/>

JihadWatch: Robert Spencer <http://www.jihadwatch.org/>

Frontpage Magazine: David Horowitz <http://frontpagemag.com/>

MEMRI: Middle East Media Research Institute <http://www.memri.org/>

Also this list of YouTube presentations on the lesser-known history of the *Islamic Crusades*:

<http://www.youtube.com/playlist?list=PL7398C647F839FF21&feature=plcp>

Each of these web sources also has their own email notification list, giving only the headlines after which you can bring up whatever is of interest. They are highly recommended. Unfortunately I do not know of any comparable ones in the German language, but would welcome suggestions along those lines.

That's all, and thanks once again for your interest in my work, and participation at the lecture and seminar. Be sure to get on the *OBRL Newsletter* email list, for

future notifications of lectures, seminars, conferences, and new publications on the subject of Wilhelm Reich and Orgonomy.

+++++++

3. Forthcoming Lectures and Conferences in 2013

I have received several invitations to speak on my work at different venues in both Europe and America in 2013. These include a lecture to be hosted by the *International Society for Comparative Study of Civilizations*, and also several lectures at a larger *Conference on Wilhelm Reich and Orgonomy* being organized in Rome Italy for October. Likewise, I may organize a weekend seminar this summer at the OBRL in Ashland Oregon, on my work in scientific orgonomy, and/or on the *Saharasia* findings. Those interested to attend these events should subscribe to the *OBRL News or Quarterly e-lists at Yahoo*, as that is where notices will be posted up with further details. **You must do this yourself by visiting the following website and using the subscriber entry form.** <http://www.orgonelab.org/OBRLNewsletter.htm>

Information will also be posted to our *events* page, as we know it:

<http://www.orgonelab.org/events.htm>

4. Research Projects at OBRL

As noted above, research at OBRL has proceeded this year, but only secondary to investigations and writing of materials in opposition to the major new assaults against Reich's biography and research legacy. To get a good overview of research underway, please review the OBRL Newsletter #24 from 2011:

<http://www.orgonelab.org/OBRLNewsletter/24OBRLDecember2011.pdf>

OBRL Funding Request
Orgone Biophysical Research Lab
Special Announcement
Funding OBRL's Fourth Decade of Work
<http://www.orgonelab.org/donate>

Your Support is needed and much appreciated.

You can either DONATE ONLINE

<http://www.orgonelab.org/donate>

Or you can send a check made out to “OBRL” or Orgone Biophysical Research Lab, and send to PO Box 1148, Ashland, Oregon 97520.

OBRL is a 501(c)(3) status organization, and your donation is tax-deductible. Please also consider to remember OBRL in your bequests.

5. Due to the high costs of printing and mailing, Internet and email are today our primary communications methods.

Get on the automated OBRL-Quarterly or OBRL-News Yahoo e-lists (if you have not already done so):

Help us to keep you informed. Go here and add your email address:

<http://www.orgonelab.org/OBRLNewsletter.htm>

OBRL-News items are also posted to the OBRL-News Blog, which you can visit at your leisure, here:

<http://obrlnews.wordpress.com/>

Thanks very much for your interest and support!
Best wishes for the Christmas Holidays, and New Year.
